

Message from the Chairman

La Fondation de l'Hôpital de Lamèque Inc. is unquestionably a key partner in the improvement of health care services provided to people in our region. Its fundraising activities and various communication approaches promote a sense of belonging to the Lamèque Hospital and CHC.

Since the Foundation was established in 1987, volunteers, administrators, and those in charge of various committees have shown much initiative and creativity in organizing fundraising activities for the benefit of the Foundation. Here are some of the activities held over the past year and the individuals who are chiefly responsible for their success: • Northern Star (Marie-Jeanne Noël) • Valentine's Brunch (Roseline Hébert) • Staff's Talent Show (Marie-Josée Roussel) • Roses Radiothon (Marie-Jeanne Noël). It should be mentioned that all of these activities are part of our annual campaign, with Yoland Chiasson as President. The Foundation is very proud to be able to count on such a dynamic team, but I would like to add that we are always seeking volunteers for succession planning. I wish to thank these leaders and their teams for their dedication to our Foundation and our hospital.

Thanks to you, almost \$50,000 was invested in our facility, i.e. physiotherapy, medicine, the Family Practice Unit, pediatric care, walk-in clinic, electrodiagnostics, and spiritual support services. An amount of over \$15,000 was also allocated to specialized regional services and the fight against cancer.

On behalf of the Foundation's Board of Directors, I wish to express my heartfelt thanks to all local volunteers, sponsors and donors who support us relentlessly. Your actions are important. Your involvement and support lead to better health for everyone and, above all, they are essential to the delivery of quality health care near you.
