

Message from the Chairman

The Fondation de l'Hôpital de Lamèque Inc. is happy to provide a positive report of activities for 2010-2011. The Foundation's gross revenues this year reached \$118,870. This success is the direct result of hard work on the part of volunteers and the community's commitment to improve health care services provided at the hospital.

Most of the \$118,870 was raised as part of the annual campaign. The funds were used to purchase new equipment for the Electrodiagnosis Department and enhance patient comfort. The official unveiling of the equipment took place last spring. The Foundation also continued to support the staff by granting bursaries totalling over \$1,500.

Over the past year, the Foundation was also able to continue implementing the following strategic directions:

- (1) Ensuring the sustainability of the Foundation;
- (2) Enhancing the visibility of the Foundations, as well as health care services provided at the hospital;
- (3) Ensuring the next generation of volunteers;
- (4) Making the Foundation more independent and proactive.

Despite the ongoing challenges within the health care system, we are confident that our organization has a strong foundation and that it will be able to continue supporting the hospital in the years ahead.

Thank you all for your support!

Chairman of the Board of Directors

Renald Guignard
