

The objective of the Fondation de l'Hôpital de Lamèque is to raise funds in support of the Lamèque Hospital and Community Health Centre's development priorities in order to meet our community's changing needs effectively. It's thanks to the community's support that the Fondation de l'Hôpital de Lamèque has invested more than \$1.3 million in the health facility since our beginnings in 1987.

More specifically, \$74,805 has been invested in the following sectors this year:

- \$66,984 – Patient care sectors;
- \$1,304 – Continuing education and other sectors;
- \$6,517 – Specialized regional services and the fight against cancer.

It would be impossible to raise such an amount without a community committed to its health facility. We are very fortunate indeed to be able to count on the participation of the dedicated members of our Board of Directors and on the many volunteers who come together in support of the Foundation. Thank you to all of our volunteers for giving their time and sharing their knowledge with us.

We must also take this opportunity to thank our donors – who show infinite generosity every year. Thank you for believing in the Foundation and in the wellness of our community.

On behalf of the Board of Directors of the Fondation de l'Hôpital de Lamèque, thank you! Your donations – in time and money – are making all the difference!
